Summary

I am using all of my experience gained during many years of major engineering projects management and execution in a role of Global Technology Principal Engineer now. Building a number of new production capacities in area of confections and gum manufacturing allowed me to learn a lot about food processing technologies and how to design and build efficient and modern production lines.

Experience

Global Technology Principal Engineer Process

Mars

Aug 2021 - Present (1 year 6 months)

Principal Regional Project Engineer PLCZ

Mars

Jun 2018 - Aug 2021 (3 years 3 months)
